This Quick Start Guide gives you the basics to start using your AXM148BT. Please visit www.axxerasound.com/support/manuals.htm to download a complete owner’s manual or call customer service at 1-866-382-5476. (Monday-Friday, 9AM-5PM EST)

Limited One-Year Warranty

This warranty gives you specific legal rights. You may also have other rights which vary from state to state. Dual Electronics Corp. warrants this product to the original purchaser to be free from defects in material and workmanship for a period of one year from the date of the original purchase. (Note that select marine products may be warranted for a shorter period of time.) Dual Electronics Corp. agrees, at our option, during the warranty period, to repair any defect in the product (whichever is deemed necessary) in exchange without charges, subject to the following limitations: Subsequent replacement products are warranted for the balance of the original warranty period.

1. Before you call for service, check the troubleshooting guide in your owner’s manual. A slight adjustment of any custom controls may save you a service call.

2. To make sure that the problem is caused by a defect in material and workmanship at the factory, please return the product to the retailer where you purchased it along with a copy of the original receipt from the retailer to an authorized service center.

3. This warranty does not cover installation/removal costs, or damage occurring during return shipment.

4. This warranty covers all defects in material and workmanship. The following are not covered:

   a. Installation/removal costs
   b. Damage occurring during return shipment
   c. Installation/removal and repair costs after the warranty period

   1. To make sure that the problem is caused by a defect in material and workmanship at the factory, please return the product to the retailer where you purchased it along with a copy of the original receipt from the retailer to an authorized service center.

   2. This warranty does not cover installation/removal costs, or damage occurring during return shipment.

   3. The following are not covered:

      a. Installation/removal costs
      b. Damage occurring during return shipment
      c. Installation/removal and repair costs after the warranty period

FCC Compliance

This device complies with Part 15 of the FCC Rules. Operation is subject to the following conditions:

1. This device must not cause interference
2. This device must accept any interference, including interference that may cause undesired operation.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

   a. Reorient or relocate the receiving antenna.
   b. Increase the separation between the equipment and receiver.
   c. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
   d. Consult the dealer or an experienced radio/TV technician for help.

Wiring Diagram Inputs/Outputs
